EXPERIENCE

DSA Trainer

iCodeGuru — Sep 2025 — Present

- Conducting comprehensive DSA training sessions at iCodeGuru in a remote role, successfully leading and mentoring students through structured learning and problem-solving practice.

MERN Stack Developer — Internship

Active Birds Solution — May 2025 — Aug 2025

- Designed and implemented responsive, user-friendly UI components to ensure seamless functionality across devices.
- Optimized the organization's website, reducing load times by 80% and enhancing its visual design to deliver a more engaging and intuitive user experience.

PROJECTS

Active Birds Solution

- **Technologies:** React, Typescript, Tailwind Css, Shadcn
- I redesigned and rebuilt the website for Active Birds Solution, creating a visually appealing and modern user interface. Additionally, I optimized the website's performance, significantly reducing load times and improving overall speed to ensure a seamless experience across all devices.

Sky Share

- **Technologies:** React, Firebase, Ant Design, Tailwind Css
- I developed Sky Share, a secure and efficient platform for sharing text and files. It features built-in password encryption to ensure user privacy and supports multiple languages for a global audience.
- [Live Link](#)

Demands2Go

- **Technologies:** React, Express Js, Node Js, MongoDB, Typescript, Shadcn,
- I created an intuitive e-commerce platform that distinguishes between user and admin roles, each with unique functionalities. I implemented advanced smart statistics, displayed through interactive charts and graphs, offering both users and admins valuable insights into their activities.
